

1. Did you know that you can earn from us using the following options below? Either you use only one option or both it is ok.

- Refer or market us to your friends and acquaintances and give them your referral promo code that is found below. Encourage them to use our products and once they register, tell them to put your Promo Code under their **Referral's Promo Code** when they register an account. Once they put your promo code on their account, you are automatically earning from the contents that were created by whom you referred. It is the commercial ads from a different business inside our website which pays us everyday, the more unique views of the contents were made by an individual, the more income the content will have. Every referral you get a portion of the income from them since you also have a banner from their contents automatically. Do not worry about the people who key in your Promo Code, you do not lessen what they earn, you are getting a portion from us, not from the one whom you refer.
