1. Click the **Sign-In** button
   a. **Desktop**

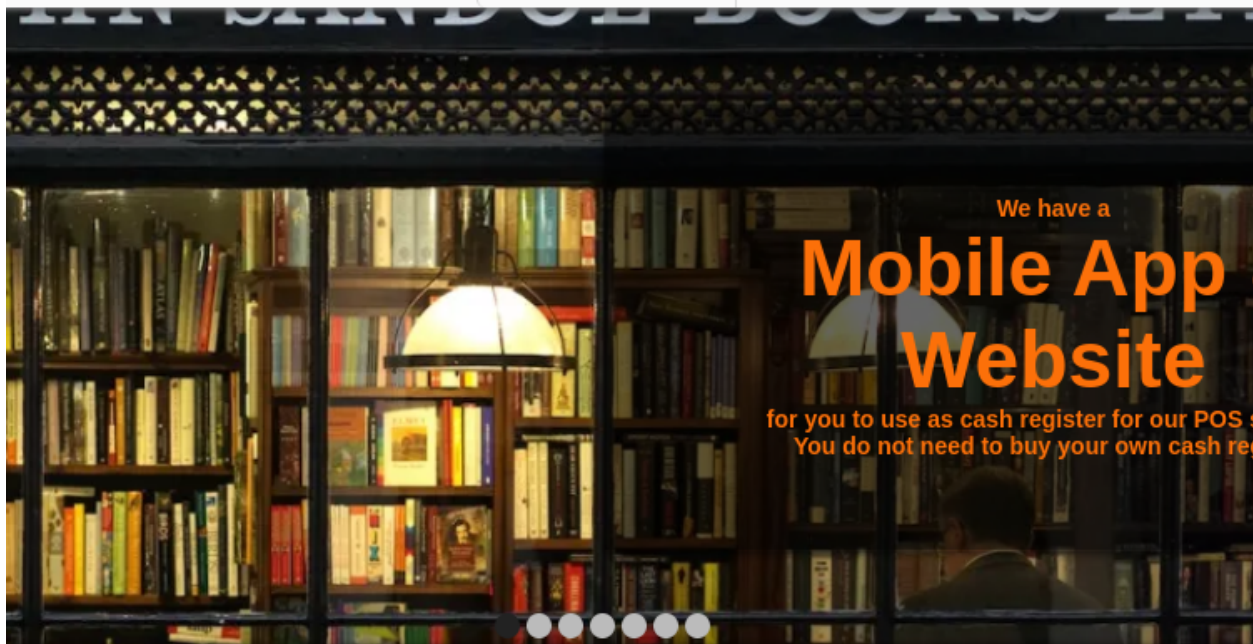

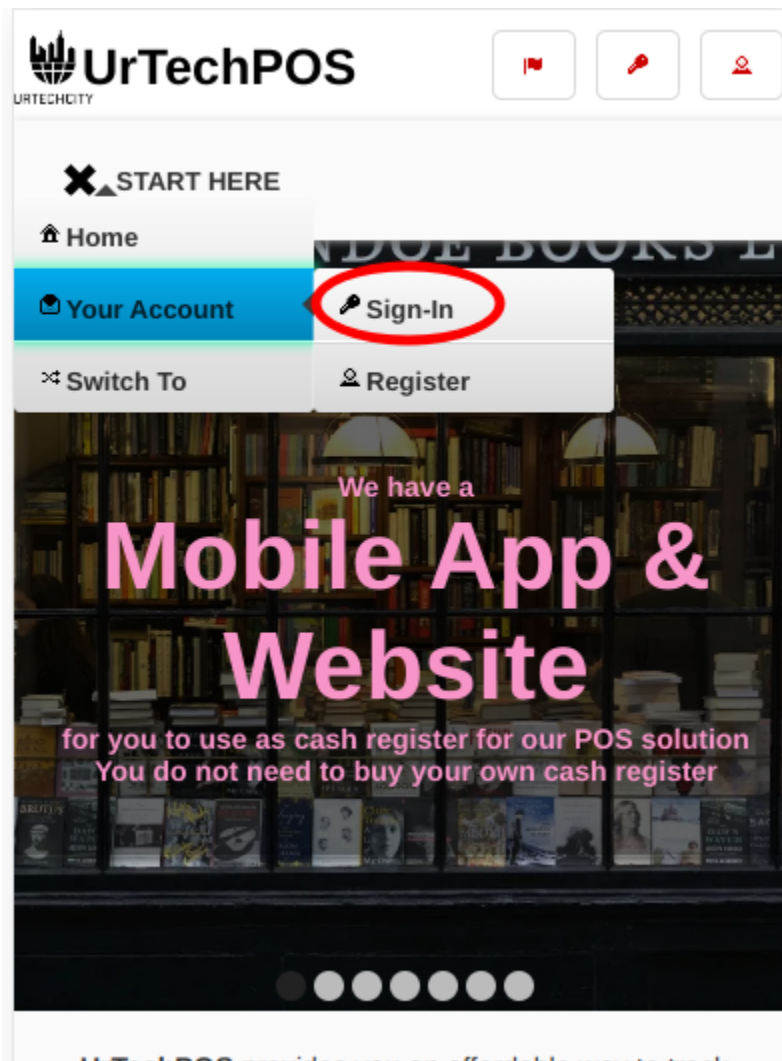

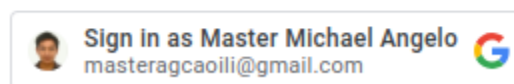

UrTechPOS provides you an affordable way to track your sales, inventory and expenses withing your business. You do not need to always keep your receipts, expenses, and do manual calculations. This gives you reports and better viewing of your sales and especially your net income, which is your true earnings. We can give you one month trial period to see if this really helps you on your business. After the trial period, just pay a very minimal monthly bill while using this POS.
