1. Fill-n the required entries and take note of the below:
   - Make sure to write interesting contents or contents that last for a lifetime, so that your contents will help you earn for a lifetime as well. Examples of these contents are, cooking recipes, music lyrics, tutorials, health tips, tutorials, knowledge sharing, travel experiences, tips in life, etc. Write as many as you can and you will see that your content is finding ways to earn money, and do not forget to share your contents everyday. The more interesting your topic, the more your viewers will be the one to share it to anyone, which will help you market your content as well. Do not forget to **PUBLISH** your contents after finalizing it so that it can be viewed by readers. Take note that publishing a content costs 5 points per content published. But do not worry, there is a way to earn more points.
   - Click **Save** button once done, or click **Cancel** to cancel writing contents.
   - **Generate Content** - this button when clicked, it will create a content for you, just give a title of the content you want to generate. This also generates images that you can choose from for your content
